DETAILED ACTION

The examiner acknowledges the applicant's submission of the amendment dated 1/14/2008. At this point claims 1, 14, 26 and 28-32 have been amended and claims 3-6, 8, 15 and 27 have been cancelled. Thus, claims 1, 2, 7, 9-14, 16-26 and 28-40 are pending in the instant application.

Conclusion

A. Subject Matter Considered Allowable

As to claims 1, 14 and 26;

References, Antonio et al., Takahashi, Ninose et al., Gonos and Malcolm et al. have been made record of teaching a high performance hard drive and a power controlled hard drive, wherein frequently used data is stored in the high performance hard drive.

However, none of the prior arts teaches or suggests: "the policy manager implementing rules of an application policy and a file system policy, the application policy defining power management directives within an application, and the file system policy including rules associated with a file system; wherein the data set to be stored is placed on the power controlled spinning-type hard drive after classification of the data into the characteristics of a fully distinguished file name, creator, owner, consumer, distribution lists, access control in detail, certificates, signature attributes, protocols, content resolution, encoding technique, encryption technique, key properties, internal

subjects, keywords, content tags, assemblies, association to other files, replication,

caching, directory and related database extensible properties".

Thus, claims 1, 14 and 26 are allowable.

Claims 2, 7, 9-13, 16-25 and 28-40 depend on the allowed claims 1, 14 and 26

above. Thus, claims 2, 7, 9-13, 16-25 and 28-40 are allowable for the same reasons

stated above.

B.   Claims No Longer in the Application

Claims 3-6, 8, 15 and 27 have been cancelled.
